

Grip Threaded 16-22mm

Product Code: F0004883

Product Description

The Grip Threaded 16-22mm sub-duct pulling carrot is a practical accessory designed for efficiently pulling plastic pipes or sub-ducts. It features a clevis and pin on one end for attaching a pulling rope, while the other end has an eye to connect with a pre-installed rope. Suitable for internal diameters ranging from 16 to 22mm, this tool streamlines the installation process, making it a valuable addition to any ductwork project.

Product Specifications

- Weight: 0.20kg
